Letters to the Editor

NOW | December 26-January 2, 2002 | VOL 22 NO 17

### **City passing the buck**

The week before last, I received a letter from the city saying the property taxes for my apartment have gone down and if I had any questions I should call the Federation of Metro Tenants Associations.

I still have not received a reply to the message I left on their mailbox system that day.

I called the city tax department, and they told me I should only be dealing with the Federation.

Why doesn't the city want to explain my city property taxes to me?
