I provide full SEO services plus I can get you your own Wikipedia page and delete any links to your competition's website on Wikipedia with my multiple ID's.

I can get your competition's links all deleted plus any Facebook and Twitter accounts through a timed program to send dozens of different complaints over days or weeks using many email accounts.

All email accounts for your competition can be overloaded with spam.

Premium service include DOS takedowns of their website from overseas servers.

Contact Andrew at <mailto:alehrer@fido.blackberry.com> for rates.
