---

You know you could have saved yourself a lot of grief. You only had to take down the content on your causepimps and tenant sites and instead put up everything you know about your bum buddy and a denouncement of his site and how he uses it to screw the poor. We would have even let you keep your basic income website.

Instead you put up more lies and pictures provided by neonazis.

You sure like to keep company with the worst of the worst.

Now you are going to be dragged through the courts. There are piles of lawyers in the new socialists who are lining up to take on the cases. We will keep you busy for years and they will get well paid from your own tax dollars!

You will lose your housing and your odsp. You only have yourself to blame.
