We could have gotten you kicked off of ODSP anytime or put back in jail for being a violent psychopath. When your friends Ford and Gene Jones go you should worry about being able to stay in that nice building.

Instead our friend asked us not enforce the verdict against you because so many groups were willing to pay him very well to have your website taken down.

We wanted to go after you for all your lies. Everybody hates the lies you are spreading about Sarah Vance. But then she is beautiful and intelligent unlike you. She also doesn't work at the Metro Tenants another of your lies. She has made more money as a teacher the past 2 years than you will make on psychiatric disability over the rest of your life you psycho scum.

We may wait again so he can make more money from those willing to pay to take your websites down but if you put the shit back up about Sarah and the rest of us you will be spending some more time in the West Detention Center again for your crimes.
